### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with William Bradley on 28 JAN 2005.

The application has been amended as follows:

### **Amendment to the Claims:**

Amend claim 13 as follows:

13. (Currently Amended) A handheld centrifuge device comprising:  
a centrifuge body adapted for handling by a user;  
a holder adapted for holding at least one sample to be centrifuged; and  
a tether having a first end associated with said centrifuge body and a second end associated with said holder;  
~~wherein said open back end is threaded for receiving threads disposed on said holder,~~ wherein said centrifuge body and said holder are machined from solid hexagonal aluminum rod, and  
wherein said holder defines six evenly spaced apertures for receiving sample tubes disposed around its circumference.

3. The above change to claim 13 was made to replace the subject matter of claim 11 appearing in independent claim 13 with the subject matter of claim 12 since the subject matter of claim 11 lacks antecedent basis in new claim 13. Note original claim 13 depended from claim 12 which depended from claim 1, thus claim 13 appearing above is original claims 1, 12, and 13 placed into independent form. The above change was made to properly place allowed claim 13 into independent form and this change was not made in view of any prior art or patentability issues.
